## PROJECTS

LearnPro - Group 

2024 FEB-AUG

A mobile app that enhances study effectiveness using techniques like the Pomodoro method and active recall. LearnPro generates AI-powered flashcards and quizzes based on user-uploaded study materials. It also fosters a collaborative environment by connecting users with peers to share study resources.(Flutter | Firebase | Dart )

### My contribution

- Developed Login and sing up functionalities with add friends option.
- Developed Pomodoro timer and storing timer history.
- Make some of UI/UX parts.

Dark Horse - Group (Ongoing).

2024 AUG-PRESENT

Visa application system that streamlines and digitizes the traditionally tedious visa process. The Dark Horse platform automates data entry, document verification, and provides a fully online application experience. It enhances user convenience, reduces errors, and offers transparent tracking of application status, significantly minimizing the need for physical visits and administrative burdens.( React | Firebase )

### My contribution

- Developed Login and sing up functionalities.
- I am willing to develop a payment gateway.
- Make some of UI/UX parts.
